

AZHAR

Design for a Modern Collection

AZHAR CANTILEVER

AZHAR

Organic shapes on rigorous geometries for a collection of seats that represents a tribute to modernism, declined in a range of different proposals: with chromed or lacquered tube steel rod sled or round steel base. Azhar has a shell in high-density polypropylene that, combined with certain types of structures, stackable or not, makes it suitable for outdoor use.

AZHAR

Forme organiche su rigorose geometrie per una collezione di sedute che rappresenta un tributo al modernismo, declinato in un ventaglio di proposte diverse: con struttura in tubo e con gambe in tondino d'acciaio cromato o verniciato. Azhar ha una scocca in polipropilene ad alto spessore che, abbinata a determinate tipologie di strutture, impilabili e non, la rendono idonea anche per l'outdoor.
